

LAWN & GARDEN

ZERO-T delivers an exceptional all-terrain mowing solution, whether operating on flat ground or slopes, with a unique tread pattern that will not damage grass. It enables mowers to go up to 15% faster than conventional turf tires, while making tighter turns. It's also designed to reduce shock and vibration, with superior puncture resistance as well.

ZERO-T II is the ideal tire for zero-turn mowers operating on slopes and rough terrain, using a squared shoulder and large voids between lugs to optimize flex and ground contact for improved grip. Its tread pattern ensures safe operation while minimizing vibration, and it features a premium compound that improves puncture resistance.
